

CERTIFICATE

Messrs.

Société Nouvelle Interplume
Z. I. Terres Douces
85210 Sainte Hermine

has obliged to use only down and feathers which are inspected regularly by an independent sanitary laboratory to comply with the hygiene and purity requirements. All filling material is cleaned thoroughly by water wash and is dried at a temperature of at least 100° C in order to fulfill the hygiene requirements of the European Standard EN12935.

The company documents the origin of the used filling material and ensures its proper extraction. All detergents used while processing the filling material are environment-friendly and preserve the naturalness of the down and feathers.

The company is therefore entitled to use the following label.

Downafresh[®] 
greenLine
Organic Filling

This brand owned by the European Down & Feather Association confirms that the filling material complies with EN 12935.
